of members of the Standing Committee on Information Technologies

---

\*  
– The expression “industrial design” covers designs and models.  
– Information related to design patent activities reported by industrial property offices issuing design patents is included in this series of documents.

## **Annual Technical Report on Industrial Design Information Activities in 2001**

submitted by

**KYRGYZSTAN**

### **I. Evolution of registration activities**

There are 13 applications for industrial design was filling to Kyrgyzpatent. There are 8 industrial designs were registered in the State Register.

The following numbers are presented in comparison with those to the 1999:

	2000	2001
applications for industrial design	9	18
- national	5	12
- foreign	4	6
registered the industrial design	12	8

### **II. Matters concerning the generation, reproduction and distribution of industrial design documents and of secondary sources of industrial design information, i.e., official gazettes**

Kyrgyzpatent publishes the Official Gazette “Intellectualdyk Menchik” (Intellectual Property) with the official information on inventions, utility models, industrial designs, trademarks, service marks, trade names, selection achievements, computer programs and database registered in the State Registers and information about their legal status. The Official Gazette is published in Kyrgyz and Russian. Word processing was used for creation of patent information. Since 2001 Kyrgyzpatent begun to publish the 12 issues in year of the Official Gazette contained bibliographic data and claims, in 2001 was published the information for 16 industrial designs.

Bibliographic data of industrial design by the WIPO standards are preserved in machine-readable form and in a paper format.

It was published the systematic, numerical and owner index to the industrial design was published for 2000.

The Official Gazette is transferred to State Patent-technical library of Kyrgyz Republic.

**III. Matters concerning Classifying, Reclassifying and Indexing of industrial design information according to the classification systems applied**

The Kyrgyzpatent uses the International Industrial Designs Classification (The Locarno Classification), other classification is not used.

**IV. Search file establishment and upkeep**

The search of industrial design information into the Kyrgyzpatent database is carried out automatically on all of bibliographic data.

The industrial design information of the other countries, which contain the Patent Fund of Kyrgyz Republic (Kyrgyzpatent's library and State Patent-Technical Library), are used for searching. Also for examination the search report is ordered in Russian Patent Office.

**V. Activities in the field of computerised search systems for industrial design**

In 2001 the activities for development of Kyrgyzpatent local network was continued, conducting of search using Internet as well as receiving information from other sources. The web-site of Kyrgyzpatent contained full information of Kyrgyzpatent activities and legal acts of the Kyrgyz Republic in the field of intellectual property.

Equipment and software used IBM-compatible personal station of Pentium and 486 Class, Windows 95, Windows 98, Windows 2000, Fox-Pro for Windows, Windows NT, Visual Fox-Pro, Internet Explorer 4, Internet Explorer 5.

**VI. Administration of industrial design services available to the public**

The completing of industrial design information fund of the State Patent and Technical Library was continued in 2001. The fund consist is industrial design information of national patent office of several foreign countries and include the official gazettes on paper.

**VII. Matters concerning mutual exchange of industrial design documentation and information**

In 2001 was continued the activities of international and regional co-operation in the exchange of industrial design information. Now Kyrgyzpatent exchange the information with various national and regional patent offices is carried out upon mutual consent.

**VIII. Matter concerning education and training including technical assistance to developing countries**

**Kyrgyzpatent's specialists took active part in international seminars and training courses by intellectual property.**

**For public training in the field of intellectual property carry out by the Inter-institutional Department "Intellectual Property". Moreover, the specialists of Kyrgyzpatent educate the students of High Degree Institutions, Universities and Research Institutes of the Kyrgyz Republic and take certain steps for the arrangement of upgrading courses.**
